

CONTENTS, VOLUME 99

NUMBER 1

JANUARY 1971

The Generation of Available Potential Energy by Latent Heat Release in a Mid-Latitude Cyclone	Ben R. Bullock and Donald R. Johnson	1-14
Numerical Integration of the Primitive Equations With a Floating Set of Computation Points: Experiments With a Barotropic Global Model	Fedor Mesinger	15-29
Correction Notice		29
Picture of the Month—The Life History of a Huge Pack-Ice Field	Tillmann Mohr	30-31
A Semi-Implicit Scheme for Grid Point Atmospheric Models of the Primitive Equations	Michael Kwizak and André J. Robert	32-36
Humidity Augmentation as the Initial Impulse in a Numerical Cloud Model	F. W. Murray	37-48
Long-Period Variations in Seasonal Sea-Level Pressure Over the Northern Hemisphere	A. James Wagner	49-66
Diagnostic Study of a Tropical Disturbance	Carl O. Erickson	67-78
Selected Publications by NOAA Authors		79
The Weather and Circulation of October 1970—Marked Persistence From September	A. James Wagner	80-86

NUMBER 2

FEBRUARY 1971

1968 Florida Cumulus Seeding Experiment: Numerical Model Results	Joanne Simpson and Victor Wiggert	87-118
A Study of the Hydrology of Eastern North America Using Atmospheric Vapor Flux Data	Eugene M. Rasmusson	119-135
Picture of the Month—A Cyclonically Curved Jet Stream	Arthur H. Smith, Jr.	136-137
Anomaly Patterns of Climate Over the Western United States, 1700-1930, Derived From Principal Component Analysis of Tree-Ring Data	V. C. LaMarche, Jr., and H. C. Fritts	138-142
A Method for Rapid Estimation of Maximum Tangential Wind Speed in Tornadoes	Paul Dergarabedian and Francis Fendell	143-145
Waterspouts and Tornadoes Over South Florida	Joseph H. Golden	146-154
Weather Note—A Rare Event of Intense Rainfall	R. A. Semplak	155-157
Temperature Measurements in the 30- to 40-Kilometer Region	H. Stuart Muench	158-160
Selected Publications by NOAA Authors		161
Warm Continental Anticyclone With Peripheral Moist Tongues—A Recent Example Illustrated by Satellite Photographs	Jerome Namias and A. James Wagner	162-164
The Weather and Circulation of November 1970—Unusually Warm and Wet in the West, Cool and Dry in the Southeast, With Strong Blocking in the Central Pacific	Raymond A. Green	165-170

NUMBER 3

MARCH 1971

Thunderstorm-Environment interactions Determined From Aircraft and Radar Observations	James C. Fankhauser	171-192
The Planetary Boundary Layer Wind Over Christmas Island	Mariano A. Estoque	193-201
The Influence of Latitudinal Wind Shear Upon Large-Scale Wave Propagation Into the Tropics	John R. Bennett and John A. Young	202-214
Interactions Between the Velocity Fields of Successive Thermals	Eugene M. Wilkins, Yoshikazu Sasaki, and Roger H. Schauss	215-226
Numerical Experiments Pertaining to Warm-Fog Clearing	L. Randall Koenig	227-241
Note on the Semi-Implicit Integration of a Fine Mesh Limited-Area Prediction Model on an Offset Grid	Ronald D. McPherson	242-246
Picture of the Month—Satellite View of a Lake-Effect Snowstorm	Edward W. Ferguson	247-248
The Weather and Circulation of December 1970—Cold and Wet in the North and Far West With Mild, Relatively Dry Conditions Elsewhere	L. P. Stark	249-254

NUMBER 4

APRIL 1971

On the Relationship Between Geostrophic and Surface Wind at Sea	Lutz Hasse and Volker Wagner	255-260
Iterative Solutions to the Steady-State Axisymmetric Boundary-Layer Equations Under an Intense Pressure Gradient	Richard A. Anthes	261-268
Atlantic Hurricane Season of 1970	R. H. Simpson and Joseph M. Pelissier	269-277
Picture of the Month—Tropical Storm Felice in Oklahoma	Edward A. Jessup	278-280
Atlantic Tropical Systems of 1970	Neil L. Frank	281-285
Eastern Pacific Hurricane Season of 1970	William J. Denney	286-301
Hurricanes and Tropical Storms of the West Coast of Mexico	Sergio Serra C.	302-308
Weather Note—An Apparent Relationship Between the Sea-Surface Temperature of the Tropical Atlantic and the Development of African Disturbances Into Tropical Storms	Toby N. Carlson	309-310
A Snowfall Prediction Method for the Atlantic Seaboard	David B. Spiegler and George E. Fisher	311-325
Selected Publications by NOAA Authors		326-327
The Weather and Circulation of January 1971—Amplification Over the United States With a Change in the Temperature Regime	Julian W. Posey	328-334

NUMBER 5

MAY 1971

Simulation of Climate by a Global General Circulation Model: I. Hydrologic Cycle and Heat Balance

Suggestions for Authors.....	J. Leith Holloway, Jr. and Syukuro Manabe	335-370
Picture of the Month—A Nighttime Infrared View.....	Frances C. Parmenter	371
Spectral Modification by Objective Analysis.....	J. J. Stephens and A. L. Polan	372-373
Objective Analysis of a Two-Dimensional Data Field by the Cubic Spline Technique.....	J. Michael Fritsch	374-378
Note on Finite-Difference Approximations for the Viscous Generation of Vorticity at a Boundary.....	R. C. Beardsley	379-386
Analytic Solutions of the Nonlinear Omega and Vorticity Equations for a Structurally Simple Model of Disturbances in the Baroclinic Westerlies.....	Frederick Sanders	387-392
Selected Publications by NOAA Authors.....		393-407
Systematic Errors in Operational National Meteorological Center Primitive-Equation Surface Prognoses.....	Colleen Leary	408
A Circularly Symmetric Primitive-Equation Model of Tropical Cyclones and Its Response to Artificial Enhancement of the Convective Heating Functions.....	Stanley L. Rosenthal	409-413
Comparison of Results of the Hurricane Debbie (1969) Modification Experiments With Those From Rosenthal's Numerical Model Simulation Experiments.....	Harry F. Hawkins	414-426
Method for Filtering Meteorological Data.....	Rosemary M. Dyer	427-434
Weather and Circulation of February 1971—A Stormy Month With a Marked Mid-Month Reversal in the Temperature Regime.....	A. James Wagner	435-438
		439-446

NUMBER 6

JUNE 1971

On the Transport of Quasi-Geostrophic Potential Vorticity.....	A. Wiin-Nielsen and Joseph Sela	447-459
Simulation of the Atmospheric Annual Energy Cycle.....	Joseph Sela and A. Wiin-Nielsen	460-468
Intertropical Convergence Zone Studied With an Interacting Atmosphere and Ocean Model.....	Arthur C. Pike	469-477
Correction Notice.....		477
Tropical Cyclone Eye Re-Formation After a 30-Hour Movement Over the Malagasy Republic.....	Cadesman Pope, Jr.	478-484
A Modeling Study of Several Aspects of Canopy Flow.....	Sumner Barr	485-493
A Numerical Solution of the Two Dimensional Steady-State Turbulent Transfer Equation.....	Gour-Tsyh Yeh and Wilfried Brutsaert	494-500
Analytic Model for Zonal Winds in the Tropics:		
I. Details of the Model and Simulation of Gross Features of the Zonal Mean Troposphere.....	Robert E. Dickinson	501-510
II. Variation of the Tropospheric Mean Structure With Season and Differences Between Hemispheres.....	Robert E. Dickinson	511-523
Computation of Climatological Vertical Velocities by the Thermodynamic Method.....	Joseph Sela and Philip F. Clapp	524-531
Independence of Monthly and Bimonthly Rainfall Over Southeast Asia During the Summer Monsoon Season.....	D. A. Mooley	532-536
The Use of Open Boundary Conditions With the Storm-Surge Equations.....	M. G. Wurtele, Jan Paegle, and Anita Sielecki	537-544
Unusual Features Observed Within a Series of Tornado Pictures.....	Earl L. Kuehnast and Donald A. Haines	545-548
Picture of the Month—A Fast-Moving Cold Front as Seen by ATS 3.....	Donald C. Gaby	549
Selected Publications by NOAA Authors.....		550
Weather and Circulation of March 1971—Drought Becomes a Major Concern in the Southwest and in Southern Florida.....	Robert E. Taubensee	551-558

NUMBER 7

JULY 1971

A Low-Level Jet in the Tropics.....	R. L. DeSouza, C. I. Aspliden, M. Garstang, N. E. LaSeur, and Y. Hsueh	559-563
The Response of a Middle-Latitude Model Atmosphere to Forcing by Topography and Stationary Heat Sources.....	Jacques Derome and A. Wiin-Nielsen	564-576
Vortex Formation by Successive Thermals: A Numerical Simulation.....	Eugene M. Wilkins, Yoshikazu Sasaki, and Roger H. Schauss	577-592
Weather and Circulation of April 1971—A Generally Cool Month With Temporary Relief From Southwestern Drought.....	Raymond A. Green	593-598

NUMBER 8

AUGUST 1971

An Investigation of Cloud Distribution From Satellite Infrared Radiation Data.....	Robert C. Lo and Donald R. Johnson	599-605
Propagation of Systematic Errors in a One Layer Primitive-Equation Model for Synoptic Scale Motion.....	William S. Irvine, Jr., and David D. Houghton	606-616
A Numerical Model of the Slowly Varying Tropical Cyclone in Isentropic Coordinates.....	Richard A. Anthes	617-635
Numerical Experiments With a Slowly Varying Model of the Tropical Cyclone.....	Richard A. Anthes	636-643
An <i>N</i> -Cycle Time-Differencing Scheme for Stepwise Numerical Integration.....	Edward N. Lorenz	644-648
Comment on a Unique Tornado Report.....	Harry Gordon	649
First and Last Occurrences of Low Temperatures During the Cold Season.....	C. K. Vestal	650-652
Picture of the Month—Air Pollution Photographed by Satellite.....	Tillmann Mohr	653
Weather and Circulation of May 1971—Persistent Cool, Wet Weather Associated With Blocking Over North America.....	L. P. Stark	654-658

NUMBER 9

SEPTEMBER 1971

Nimbus 3 "SIRS" Pressure Height Profiles as Compared to Radiosondes.....	C. M. Hayden	659-664
Wind Estimation From Geostationary-Satellite Pictures.....	L. F. Hubert and L. F. Whitney, Jr.	665-672
Effect of Horizontal Resolution in a Finite-Difference Model of the General Circulation.....	Robert E. Wellek, Akira Kasahara, Warren M. Washington, and Gloria De Santo	673-683
Picture of the Month—Smoke From Slash Burning Operations.....	Frances C. Parmenter	684-685
Further Tests of a Grid System for Global Numerical Prediction.....	Ludwig Umscheid, Jr., and M. Sankar-Rao	686-690
Correlations Between Areal Precipitation and 850-Millibar Geopotential Height.....	Iver A. Lund	691-697
A Theoretical Interpretation of Anisotropically Weighted Smoothing on the Basis of Numerical Variational Analysis.....	Yoshikazu Sasaki	698-707
Selected Publications by NOAA Authors.....		708
Weather and Circulation of June 1971—A Reversal of the Temperature Regime in Most of the United States.....	Julian W. Posey	709-714

NUMBER 10

OCTOBER 1971

An Analysis of Kinematic Vertical Motions.....	Philip J. Smith	715-724
Numerical Integration Experiments With Variable-Resolution Two-Dimensional Cartesian Grids Using the Box Method.....	Walter James Koss	725-738
The Use of Satellite Cloud Motions for Estimating the Circulation Over the Tropics.....	Arnold Gruber, Leroy Herman, and Arthur F. Krueger	739-743
Preliminary Results From an Asymmetric Model of the Tropical Cyclone.....	Richard A. Anthes, Stanley L. Rosenthal, and James W. Trout	744-758
Comparisons of Tropical Cyclone Simulations With and Without the Assumption of Circular Symmetry.....	Richard A. Anthes, James W. Trout, and Stanley L. Rosenthal	759-766
The Response of a Tropical Cyclone Model to Variations in Boundary Layer Parameters, Initial Conditions, Lateral Boundary Conditions, and Domain Size.....	Stanley L. Rosenthal	767-777
Effect of Surface Friction on the Structure of Barotropically Unstable Tropical Disturbances.....	R. T. Williams, T. K. Schminke, and R. L. Newman	778-785
Variational Subsynchronous Analysis With Applications to Severe Local Storms.....	John M. Lewis	786-795
Distribution Function for Seasonal and Annual Rainfall Over India.....	D. A. Mooley and G. Appa Rao	796-799
Weather and Circulation of July 1971—A Midmonth Circulation Reversal Accompanied by Drought-Relieving Rains in Texas.....	A. James Wagner	800-806

NUMBER 11

NOVEMBER 1971

Estimation of the Effect of Partial Cloud Cover on the Radiation Received by the Nimbus HRIR.....	Fred M. Vukovich	807-811
Detailed Sea-Surface Temperature Analysis Utilizing Nimbus HRIR Data.....	Fred M. Vukovich	812-817
The Annual Course of Zonal Mean Albedo as Derived From ESSA 3 and 5 Digitized Picture Data.....	Jay S. Winston	818-827
Detection of Thawing Snow and Ice Packs Through the Combined Use of Visible and Near-Infrared Measurements From Earth Satellites.....	Alan E. Strong, E. Paul McClain, and David F. McGinnis	828-830
A Numerical Study of the Effects of Longwave Radiation and Surface Friction on Cyclone Development.....	Maurice B. Danard	831-839
The Mutual Interaction of Multiple Vortexes and Its Influence on Binary and Single Tropical Vortex Systems.....	M. L. Khandekar and Gandikota V. Rao	840-846
Further Comments on the Climate of the Nineteenth Century United States Compared to Current Normals.....	Val L. Eichenlaub	847-850
On Stochastic Dynamic Prediction: I. The Energetics of Uncertainty and the Question of Closure.....	Rex J. Fleming	851-872
A Note on the Derivation of a Scale Measure for Precipitation Events.....	Charles F. Roberts	873-876
Summary of Funnel Cloud Occurrences and Comparison With Tornadoes.....	Alf C. Modahl and William M. Gray	877-882
Height and Kinetic Energy Oscillations in a Limited-Region Prediction Model.....	Russell L. Elsberry and E. J. Harrison, Jr.	883-888
Weather and Circulation of August 1971—Warm and Dry in the Northern Plains, Cool and Wet in the Southern Plains, Recurrent Tropical Rainfall Along the Atlantic Coast.....	Raymond A. Green	889-894

NUMBER 12

DECEMBER 1971

Numerical Simulation of the Life Cycle of a Thunderstorm Cell.....	Yoshimitsu Ogura and Tsutomu Takahashi	895-911
Kinetic Energy and Quasi-Biennial Oscillation.....	Alvin J. Miller	912-918
Theoretical Analysis of the Effect of Mean Wind and Stability on a Heat Island Circulation Characteristic of an Urban Complex.....	Fred M. Vukovich	919-926
On Stochastic Dynamic Prediction: II. Predictability and Utility.....	Rex J. Fleming	927-938
Study of the Effect of Weather on Road Construction: A Simulation Model.....	W. J. Maunder, Stanley R. Johnson, and J. D. McQuigg	939-945
The Effect of Weather on Road Construction: Applications of a Simulation Model.....	W. J. Maunder, Stanley R. Johnson, and J. D. McQuigg	946-953
Some Aspects of Variance Spectra of Synoptic Scale Tropospheric Wind Components in Midlatitudes and in the Tropics.....	Paul R. Julian	954-965
The Unnamed Atlantic Tropical Storms of 1970.....	David B. Spiegler	966-976

NUMBER 12 (Continued)

DECEMBER 1971

Correspondence

Comments on "Objective Analysis of a Two-Dimensional Data Field by the Cubic Spline Technique"

Harry R. Glahn and James E. McDonell 977-978
